Profile

I am a Software Developer with a BSc in Psychology and Neuroscience. I'm deeply motivated to build innovative and purposeful applications that support effortless user experiences. My goal is to create world changing solutions by leveraging my diversity, creativity, and determination.

Projects

The Virtual Gallery
Utilized Django, Python, Javascript, PostgreSQL and Amazon S3 to create a virtual space to share art. Artists are able to create and share exhibitions and interact with viewers through comments and likes. This app includes full CRUD and Oauth.

Ode Toronto
Web app built with HTML, CSS/Sass and JavaScript for Ode a boutique hotel. Worked closely with designers and the marketing team to develop and launch the site while considering security, maintenance and scalability.

Resumates
Built with a MERN stack (MongoDB, Express, React, Node) and Amazon S3 for displaying a database of resume samples from working professionals to help craft a strong resume.

Very Good Restaurants
Created an online restaurant catalogue using Django, Python, MySQL and Postbird with full CRUD functionality operations hitting all RESTful API calls as well as Oauth implementation.

RattlerRace
Developed my take on the classic Snake Game in 5 Days With HTML5, CSS3/Sass and JavaScript

Education

General Assembly
Software Engineering Immersive
08/2021 - 11/2021

University Of Toronto
Honours Bachelor Of Science
Psychology Specialist
2015 - 2020

Skills

Programming Languages
Javascript, GraphQL, HTML, CSS/Sass, Python, R

Libraries & Frameworks
React, JQuery, Django, Express, MongoDB, Mongoose, PostgreSQL, MySQL, Bootstrap, Materialize, Tailwind

Tools & Platforms
Git, Trello, Amazon AWS, Google Cloud, Heroku, Wordpress

Design
Figma, Photoshop, Illustrator, Blender

Experience

Atelier C[3]
Co-Founder / Full Stack Developer
10/2021 - present
- Write maintainable, efficient, and robust code for internal projects and various clients (within time and budget constraints)
- Interface and collaborate with a multi-disciplinary team of engineers, designers and clients on a daily basis
- Liaise with clients to understand specifications, schedule and delegate tasks in order to successfully complete projects
- Work with various languages, frameworks, and CMSs such as JavaScript, Python, React, Node.js, Wordpress, etc.

Ode Toronto
Technical Strategist / Front End Developer
09/2019 - 12/2021
- Developed and maintained code for in-house website using HTML, CSS/Sass and JavaScript
- Created application with a mobile-first approach and tested site in various browsers and devices to ensure cross-browser compatibility and mobile responsiveness
- Performed routine accessibility and UX audits
